The tradition of the conference is that the conference participants present cases and/or experiences from their profession, thus pointing out national solutions and problems of valuation. Due to the coronavirus pandemic the organisation committee decided to avoid a face-to-face meeting and organise a virtual conference instead. Unfortunately the side events like dinner, welcome reception or guided tour cannot take place this year, but hopefully next year allows a face-to-face meeting again and will then lead all of you to Potsdam (prospective date: 2021, June 17th till 19th).

So in spite of the change in performance please register as a speaker and share your experiences. Your presentation can either be sent to the BVS on beforehand or you allow all participants to share your computer or upload your presentation. We will use Zoom for the virtual conference.

The Baltic Valuation Conference is a non-formal meeting of valuers of countries around the Baltic Sea. It does not only offer an informative exchange of experience and methods, but provides also personal contact to colleagues in other countries.

The conference is driven by individual effort and interest – keep it going!
30th Baltic Valuation Conference
Virtual Conference on November 19th and 20th, 2020

Topics of the BVC 2020:
- Valuation of an apartment with comparison method (data of flat provided by host, valuation approach according to national usage).
- Rights and burdens on real estate and their influence on the value

Actual supplement due to the pandemic:
- Pandemic-caused influences and impact on the real estate market in your country. Are there differences in the submarkets (retail, office, multi- or single family houses, apartments, agriculture/forests etc.)?
